

Extractor

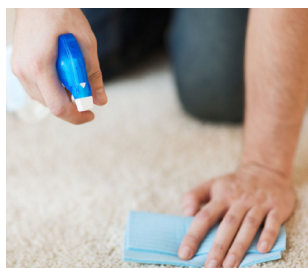

CARPET CLEANER

Concentrated carpet & upholstery soil extraction machine fluid

MACHINE APPLICATION

1. Follow instructions on machine.
2. Use 1-2 ounces* of **Extractor** per gallon of water.
3. Test effect on lightweight upholstery fabrics in a small area before using over all.
4. Lukewarm water may be used.
5. Do not allow carpet backing to be soaked.

PRE-SPOT CLEANING

1. Use NUVITE's **PCS Professional Carpet Cleaner** concentrate as directed.
2. Follow with full carpet cleaning using NUVITE's **Extractor**.

**Product dilutions are determined by extent, condition & soil type.*

When using any NUVITE product, please refer to appropriate procedures and recommendations for use and equipment, or contact a NUVITE technician for more information, unique applications and special requirements.
