**Nuvite
CHEMICAL
COMPOUNDS**

TECHNICAL DATA

Nulmage PC2300

NUIMAGE cleans and debugs after metal compounding procedures on exterior aircraft leading edges, window trims, etc. **NUIMAGE** can also be used on recreational vehicle components such as: grills, bumper guards, bug shields, etc without the fogging of normal cleaners or waxes. Use **NUIMAGE** for final cleanup of black polish residue on metal or paint, and removing excess polish after power buffing.

APPLICATION

Pour a small amount of **NUIMAGE** on a soft cotton polishing cloth and wipe gently onto surface. Spread over the area and continue rubbing until **NUIMAGE** is removed. Allow to dry and polish away to shine with a clean cotton flannel polishing cloth. For stubborn bug residues, apply **NUIMAGE** directly on spot and allow to saturate until the residue can be removed with gentle rubbing.

For best results, please consult with UPI/Nuvite technical staff for further recommendations, and application techniques.

BENEFITS

- Debugs and cleans without fogging
- Imparts a chemical barrier against soil redistribution
- Effective to use for quick clean and shine maintenance
- Conforms to Airframe OEM standards and specifications

PHYSICAL CHARACTERISTICS

Test	Nulmage
Appearance	Grey Viscous Liquid
pH	9.1 - 9.5
Specific Gravity	1.06

AVAILABILITY

55 Gallon(s), 5 Gallon(s), 1 Gallon(s), 1 Quart(s), 1 Pint(s), 8 Ounce, 4 Ounce, 1 Ounce
